Tile Admix 01

Liquid Polymer Additive

Description

Swadi Tile Admix 01 is a polymer emulsion liquid in white colour for use with cement-based adhesives to give more bond strength to improve flexibility, where expansion and contraction takes place due to thermal and extreme weather conditions. It can be used to repair the damaged concrete floors with the dry cement mortar or cement concrete.

Where to Use

1.) It can be used to fix tiles with adhesives for swimming pool.
2.) Other water retaining structures.
3.) External stone / vitrified tile cladding.

Advantages

- Improves water resistance.
- Provides good flexibility.
- External stone / vitrified tile cladding.

Technical Data

Appearance	White emulsion
Specific gravity	1.02
Application temperature range	From 5°C to 45°C

Mixing Instructions

Refer to individual datasheet of tile adhesives, for mixing ratios.

Dosage

1 kg for every 20 kg bag of Swadi Tile Adhesive.

Shelf Life Storage and Shelf life /Precautions /Disposal /Spillage

For further information please refer to the material safety data sheet.

Packaging

1 kg & 5 kg can.

Condition of Sale

Sold subject to the Company's conditions of sale which are available on request.

Storage and Handling Guidelines

The product should be stored in accordance with national regulations. It is essential to keep it in a cool, well-ventilated area, away from heat, direct sunlight, sparks, and children. Please note that the product contains flammable solvents, so handle it with care. To ensure proper curing, mix the resin and hardener according to the specified ratio. Once mixed, use the solution within its pot life to avoid premature hardening.

Health, and Safety Information

Swadi Tile Admix 01 is considered on-hazardous in normal usage; however, avoid contact with eyes or skin. Wear suitable protective dust mask, gloves and safety glasses. In case of contact with eyes, rinse for several minutes under running water.

For further information, please consult the Material Safety Data Sheet (MSDS).

Disclaimer

The information provided in this datasheet is based on our extensive experience and is given in good faith to assist you. However, we reserve the right to update this information at any time without prior notice due to our ongoing research and development efforts. While we guarantee the consistent quality of our products, we cannot be held responsible for any losses or damages that may arise from their use if site conditions or the execution of work are not properly managed. This data sheet becomes invalid upon the publication of a new edition, and please contact us for the latest version. Please note that we do not provide any warranties regarding the results of our products in specific applications, as the storage, handling, and application of materials are factors beyond our control.
